

# Grasshopper Kiosks

Finally, user-friendly customer solutions meet versatile business solutions.

Custom retail solutions. Quicker sales.  
Better customer experience.

## KEY FEATURES

- Intuitive interface**  
Easy to use interface keeps transactions simple, stress-free.
- Integrates with your POS**  
Is your shop running on a popular point of sale software? Grasshopper integrates with your POS.
- Big 32" diagonal, hi-res, video-capable LCD screen**  
Visually engaging in-store feature. When not serving customers, it's a digital billboard (video capabilities for advertising). Dispensary owners: consider the possibilities for monetizing content.
- Technology + communication**  
Best-in-class software suite. MDB support to all industry standard devices. DEX data output support.
- Visibility + security**  
Internal & external monitoring camera options.
- Adjustable product selection**  
Simple to adjust to different product sizes without tools.

ASK US HOW YOU CAN SAVE  
\$10,000 A MONTH WITH A  
GRASSHOPPER KIOSK.

# KIOSK BENEFITS

With capacity for up to 36 or 60 unique SKU's, refrigerated climate control and additional options for customized brand wraps, the Grasshopper Kiosk boosts your ability to serve customers.

## Express lane

Some customers are in a hurry. Help them get home quicker with a smart vending machine. Especially valuable for high volume periods such as rush hour, right before weekends, holidays. Average transaction takes 1 minute.

## Budtenders stay active and engaged

Spend less time fulfilling repeat orders and more time sharing their knowledge and training solving problems for new customers.

## Maximum sales, minimum footprint

Load with up to 36 or 60 SKUs.

## Management visibility

Cloud-based software integrates with your POS, remotely tracks inventory, decreases shrinkage, monitors cash flow & tax collection, and creates sales reports.

## Quality control

Grasshopper 3600 is refrigerated - keeps product at constant temperature, maintaining product freshness, texture, and aroma longer.

## Cost management

Transaction costs are reduced when they're automated. Like adding a digital budtender for simple sales.

## Regulatory compliance

Check ID, maintain inventory counts, collect taxes, integrates with POS and collects data toward daily limits and other regulations.

## ADA compliant

Engage and serve all customers with respect and ease.

## Serve customers who don't like to interact

Cannabis customers with anxiety disorders might prefer a quick transaction that's intuitive and predictable. Let them know you value their business by investing in a solution that works for them.

## Software features

- ID scan and verification—Each customer is identified before he/she can get products.
- Daily Limit Checks—Integrates with dispensary POS so users can not get anything above state-prescribed daily limit in a single transaction and/or multiple transactions within that dispensary.
- Integration with Major POS systems
- Identify products by strain type or product type
- Graphic display of products with detailed description
- Screen swipe feature like using a smart phone
- Selection by product category and function/mood
- Accepts multiple denominations and gives change in bills and coins
- Customers can purchase multiple items in one transaction
